Supporting InformationBackground

On February 15, 2008, the City Council approved the Asphalt Pavement Resurfacing Program. The purpose of this program is to extend the life of some city streets which are not scheduled for any preventative maintenance, renovation or reconstruction in the foreseeable future. This resurfacing program is targeting neighborhoods and MSA streets that are at a point in their life cycle where a new surface will extend the street's life and improve ride quality and neighborhood livability, and help slow the overall deterioration of our City street system.

The purpose of this letter is to designate the location, streets and improvements, and establish the special assessment improvement proceedings for street resurfacing for the following local city streets:

- Johnson St NE from 8th Av SE to E Hennepin Av was last paved in 1972.
- 10th Av SE from 8th St SE to Como Av SE was last paved in 1974.
- 11th Av SE from Como Av SE to E Hennepin Av was last paved in 1974.

As provided in Chapter 10, Section 8 of the City Charter, a list of parcels with owner's names, as nearly as can be readily ascertained which would be benefited by and assessed for the Johnson St NE, 10th & 11th Aves SE Street Resurfacing Project is on file with the City Engineer's Special Assessment Office.

Also submitted is a cost estimate of \$202,864 for these project streets.

Special Assessments

The street resurfacing special assessments would be determined by applying the 2014 Uniform Assessment Rates to the land area of benefited parcels located within the street influence zone along the improved streets. The approved 2014 resurfacing rates are as follows:

\$0.60/sq. ft. – Non-Residential

\$0.20/sq. ft. – Residential
